SUMMARY

Educator with 3+ years of combined teaching experience across Mathematics, Science, Physics, and Full-Stack Web Development (MERN), alongside a strong professional background in software engineering. Despite a promising career in software development, teaching is where my passion lies — I find genuine fulfillment in simplifying complex concepts and helping students grow, and am committed to building a long-term career in education. Brings real industry experience into the classroom, making technical subjects practical and relevant for students.

TEACHING EXPERIENCE

Guru Ashish Coaching Classes

Dehu, Pune

Mathematics, Science & Physics Tutor (Grades 7–12)

Jan 2022 – May 2024

- Taught **Mathematics and Science** to students from 7th to 10th grade, and **Physics** to 11th and 12th grade students, over a 2+ year span, building strong conceptual foundations for board exam preparation.
- Designed simplified explanations and practice methods for difficult topics across subjects, consistently improving student performance and exam confidence.
- Maintained long-term engagement with students and parents, adapting teaching pace to individual learning needs across multiple grade levels.

S-tek IT Education

Pune, India

Full-Stack Development Trainer (MERN Stack)

May 2024 – May 2025

- Trained students in the complete **MERN stack** (MongoDB, Express.js, React, Node.js), covering frontend, backend, and database concepts from fundamentals to project deployment.
- Designed hands-on curriculum and real-world projects to help students transition from theory to industry-ready development skills.
- Mentored students on debugging, best practices, and Git-based workflows, bridging the gap between classroom learning and real software jobs.

INDUSTRY EXPERIENCE

Indian Navy

Pune, India

Software Developer

May 2025 – May 2026

- Worked as a Software Developer for one year, building and maintaining applications in a secure, high-standards environment.
- Implemented an **offline LLM solution** using **llama.cpp** for AI use without internet access, showcasing the ability to teach and apply cutting-edge technical concepts.
- Brings first-hand, current industry practices directly into a teaching context — a strong asset for technical and STEM education.

TEACHING & TECHNICAL SKILLS

Subjects Taught: Mathematics & Science (Grades 7–10), Physics (Grades 11–12), Full-Stack Web Development

Tech Stack (for teaching): MongoDB, Express.js, React, Node.js, JavaScript, HTML/CSS, Git

Teaching Skills: Curriculum Design, Concept Simplification, Mentorship, Doubt-Solving, Exam Preparation

Other: Agentic AI, Automation, Python, Linux

ACHIEVEMENTS

Offline AI Deployment: Implemented an offline LLM (Sarvam AI via llama.cpp), enabling secure AI use without internet dependency.

Top 20 Finalist — "Innovative You" Hackathon: Selected among top 20 out of 250+ participants for an innovative technical solution.

EDUCATION

Siddhant College of Engineering

Pune, India

Bachelor of Engineering

RLT College of Science and Technology

Maharashtra, India

Higher Secondary Certificate (HSC)
